Mockups is Easy

Start by adding controls from the UI Library

Double-click to edit the controls you add

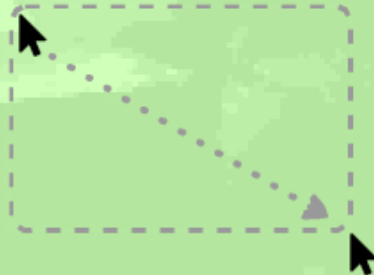

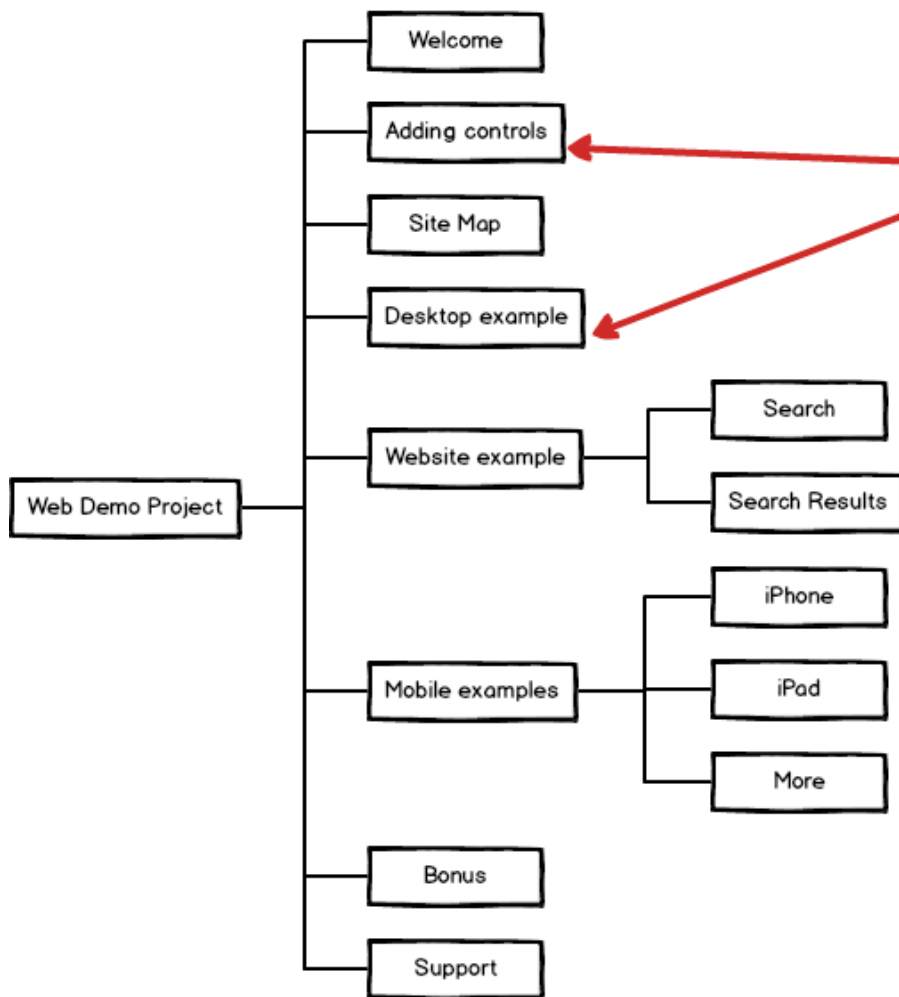

- ☒ option 1 (selected)
☐ option 2

See what else you can build with Balsamiq

Want to see something really cool?
Hold R, T or Y and drag out a square with your mouse.

This **Site Map** reflects the structure of your project.

It allows you to quickly "jump" to any created mockup by using ALT+click on the links.

To create it, you only need to add a Site Map and click on "Populate from Project" in the **Inspector**. 

Welcome to Balsamiq Mockups!

Quick Add

- Mobile example

Project Information

Notes

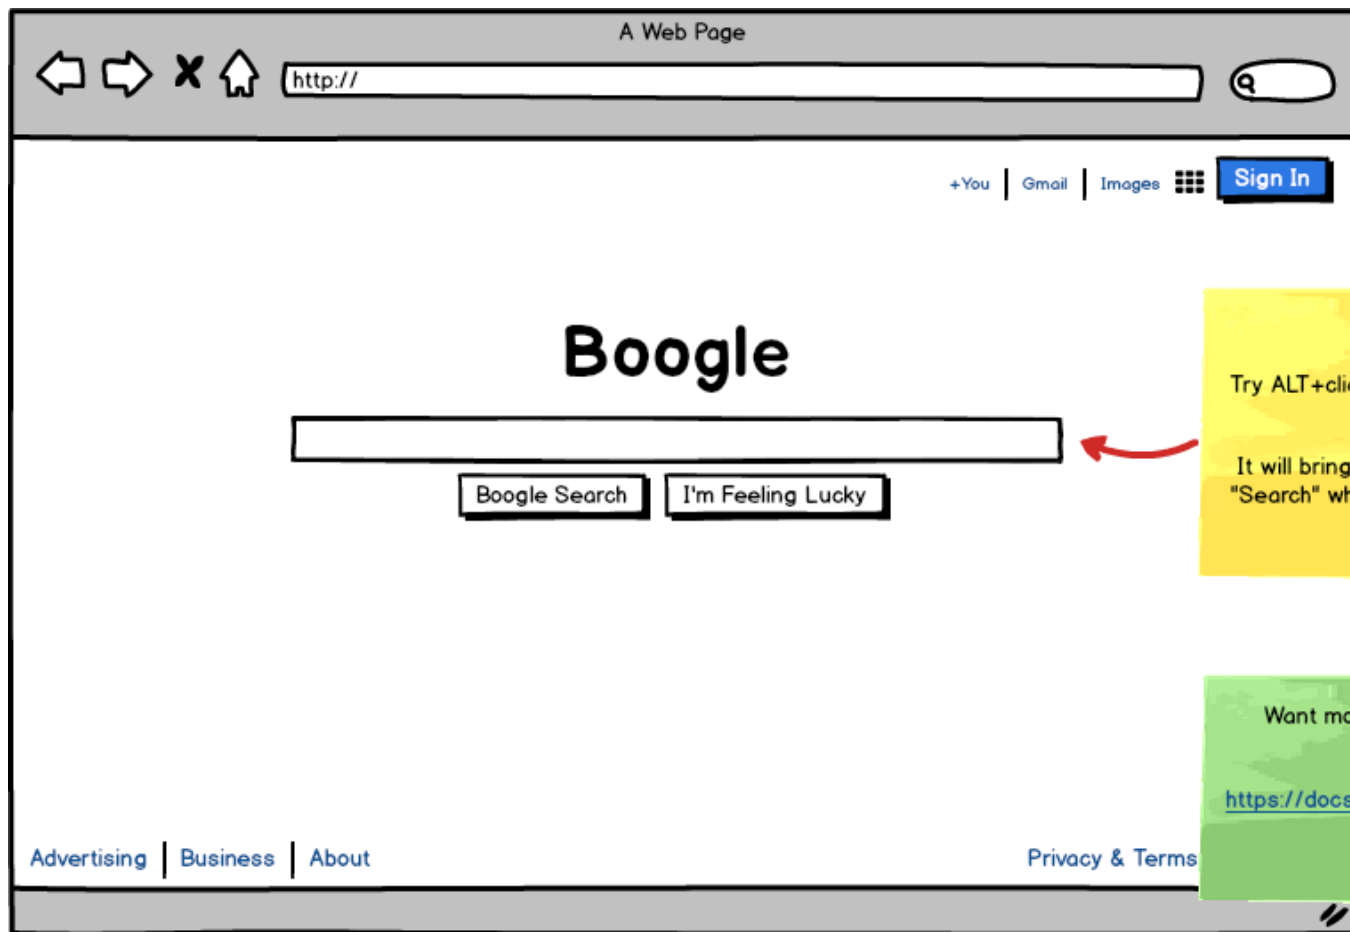

This is a **sample** project to help you learn your way around.

Feel free to delete it or use some of these controls for your own projects.

If you want to save your data **Download the Project BMPR** (from the Project menu) and open it in **Mockups 3 for Desktop**.

Want more information about **alternates**?

Please visit
<https://docs.balsamiq.com/desktop/alternates/>
or ALT+click [here](#).

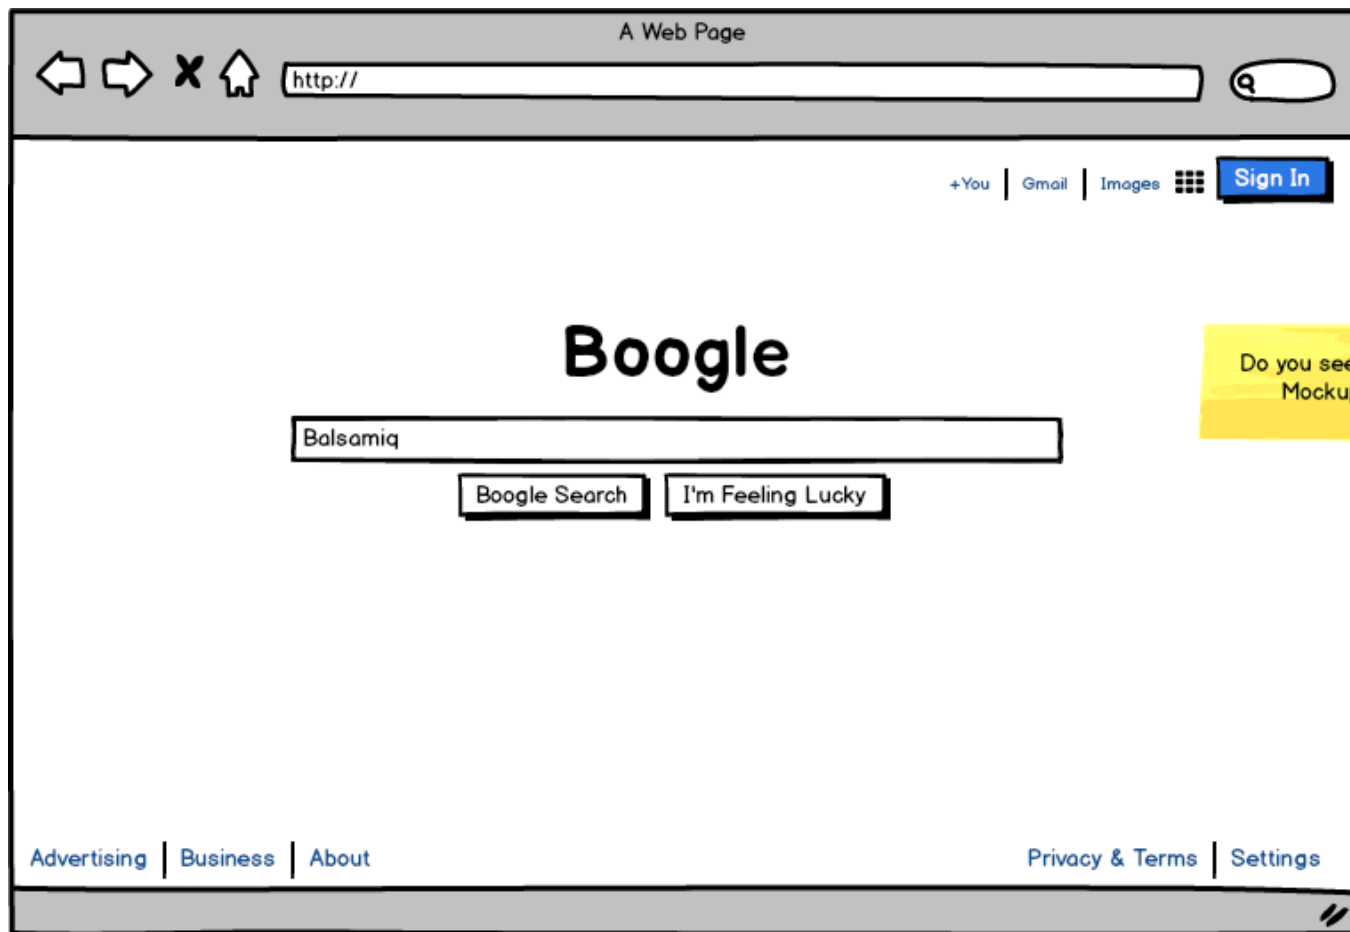

This is a link.

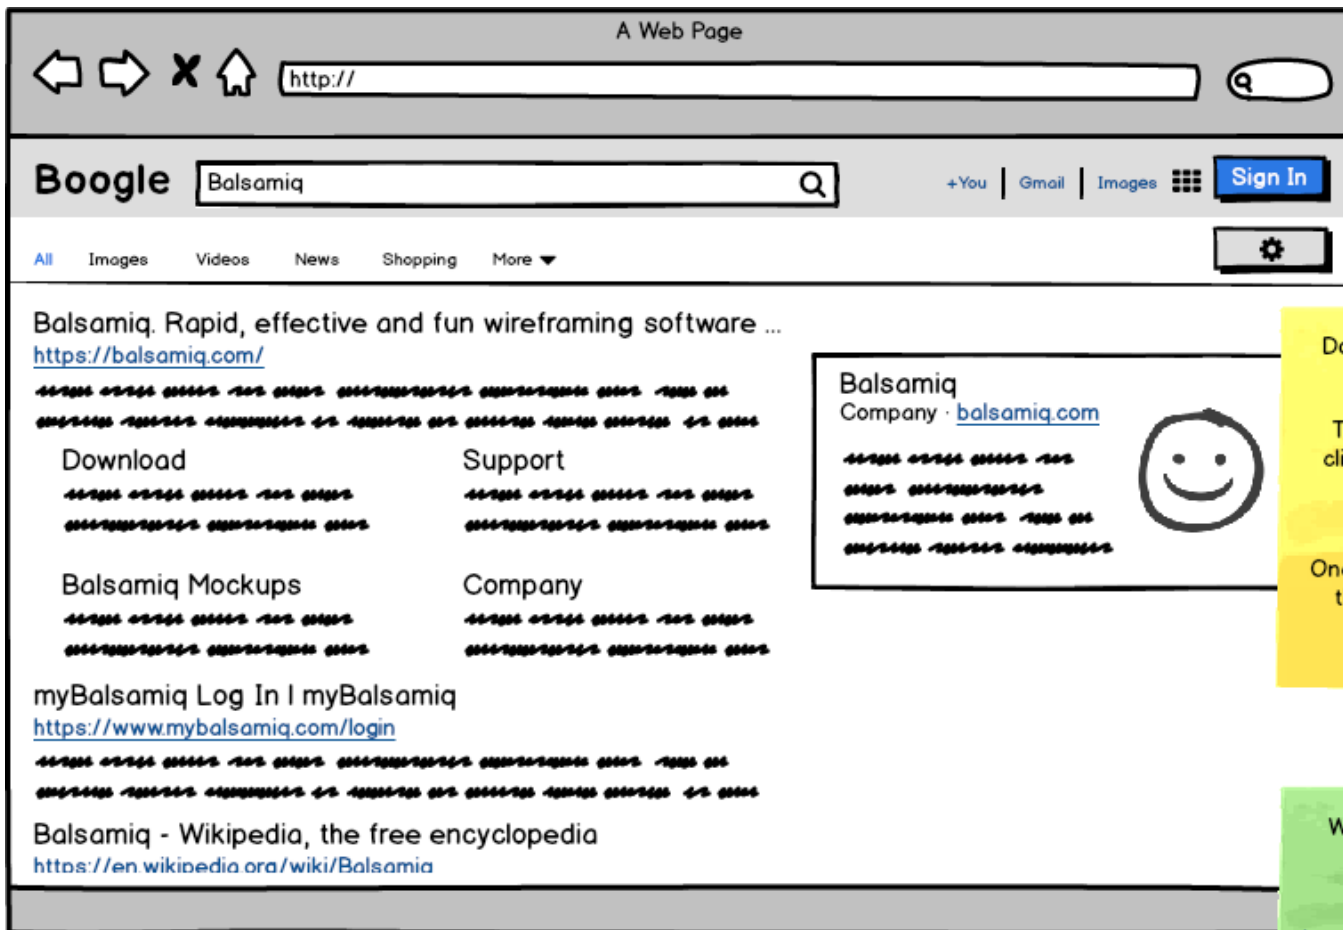

Try ALT+click on the little arrow to simulate a search.

It will bring you to the next Mockup called "Search" which has the search field already filled in. :)

Want more informations about links?

Please visit
<https://docs.balsamiq.com/desktop/linking/>
or ALT+click [here](#).

Do you want to demonstrate links by simply clicking on them?

Try our Full Screen Presentation Mode by clicking this icon in the top right part of the app -->

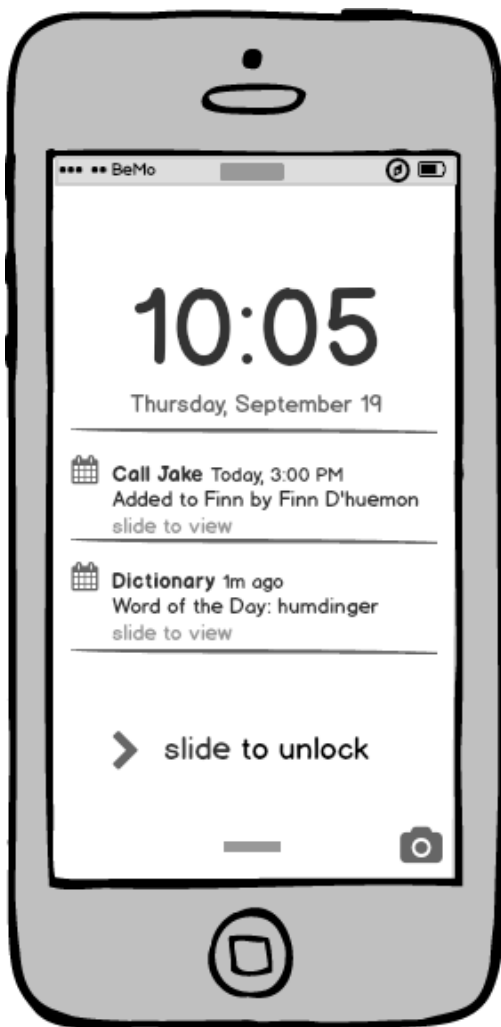

Once in there, look for a pink hint and click on the related link to go back to the Mockup "Website example".

Want more informations about **Full Screen Presentation Mode**?

Please visit
<https://docs.balsamiq.com/desktop/fullscreen/>
or ALT+click [here](#).

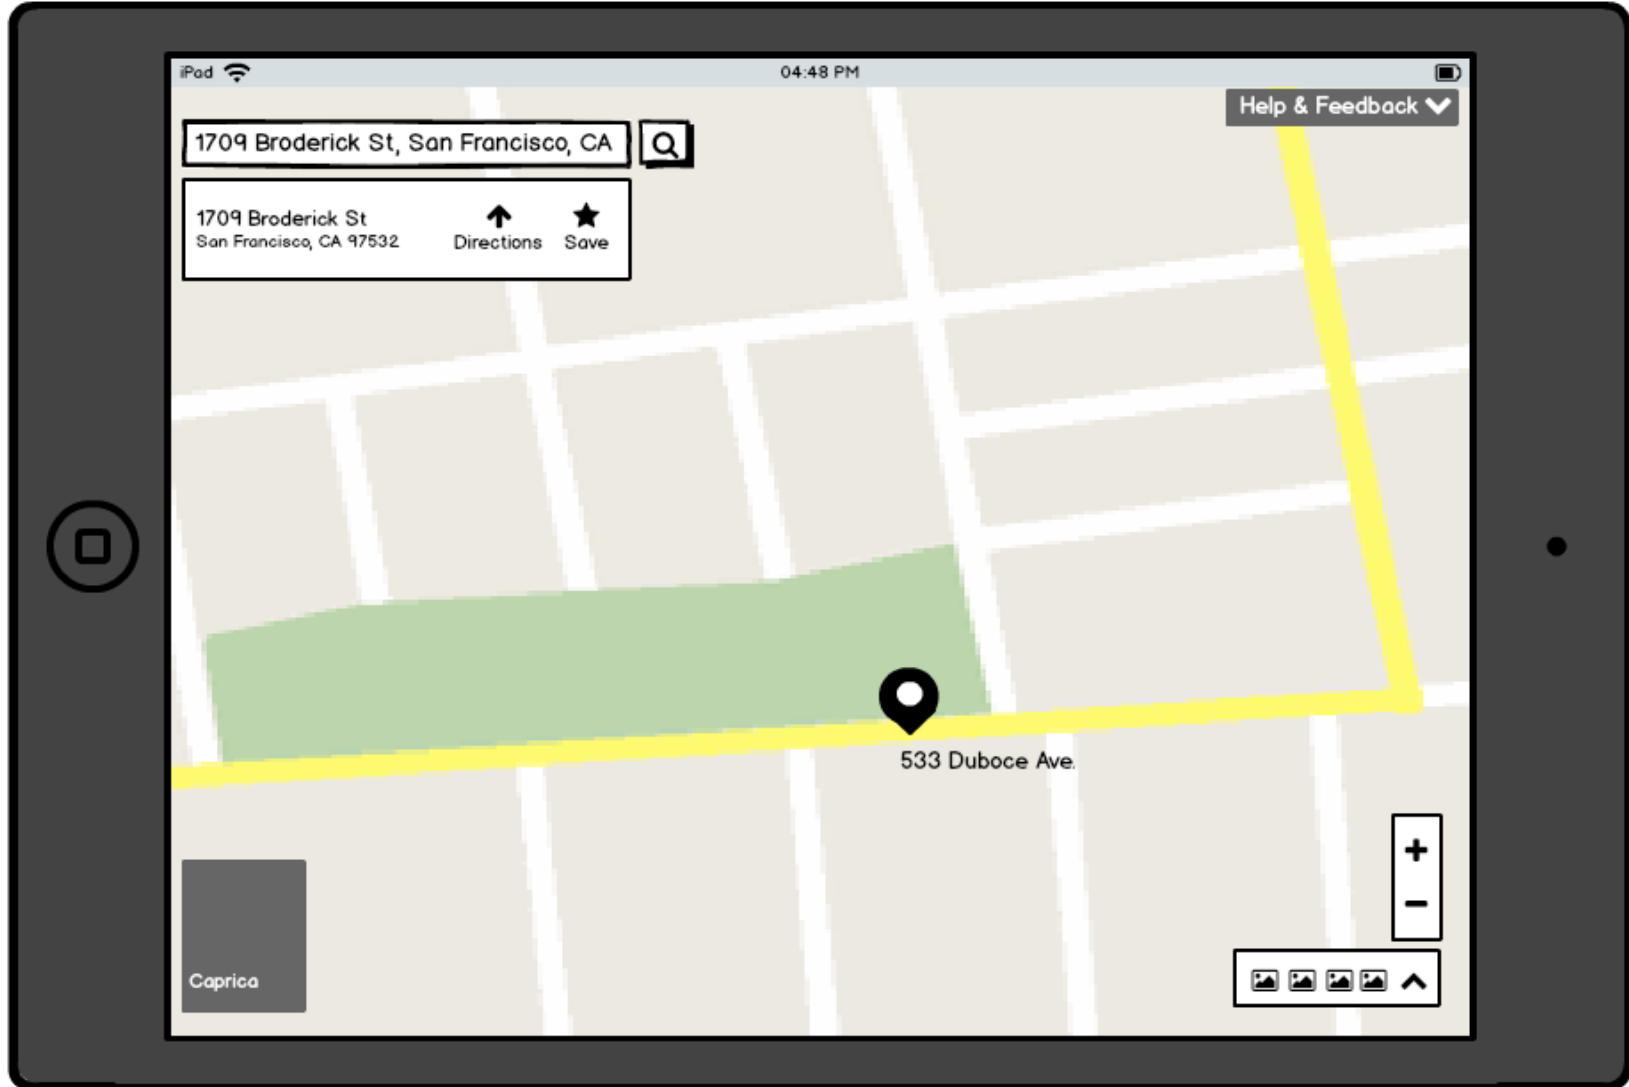

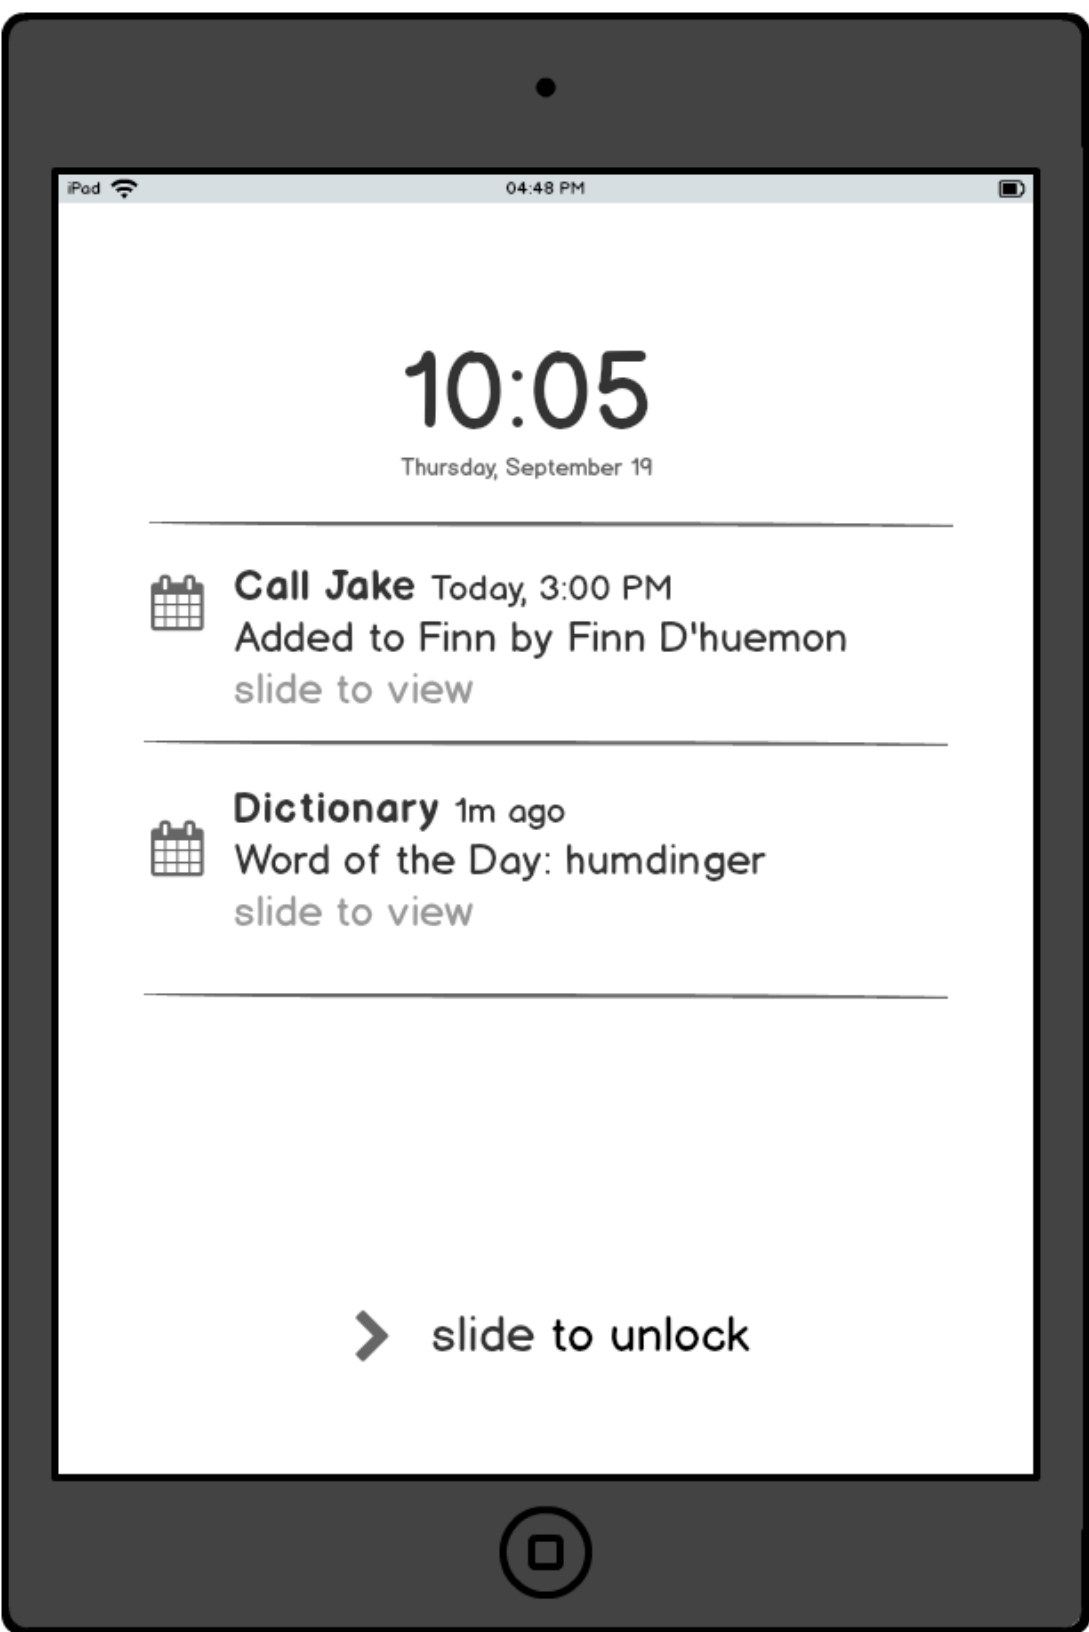

Check out the **iOS** category of the UI Library for more mobile controls or make your own!

Do you want to see a more recent picture of the team?

Click on "Alternate..." in the Alternate Versions panel

Looking for more **Mobile controls**?

Please visit <https://mockupstogo.mybalsamiq.com/>
or ALT+click [here](#).

Mockups To Go is a free user-contributed collection of
ready-to-use UI controls.

More details here:
<https://support.balsamiq.com/resources/mockupstogo/>
or ALT+click [here](#)

Bonus: Some cool features

Music?

Yes, built-in background music to help you get into your creative zone!

What should I make for dinner?

We are here to help too! Have a look at the same menu below. :)

Do you need some placeholder text?

Type lorem in a Paragraph or Text Area to use our Lorem Ipsum generator.
